V.

New Maven project

Specify Archetype parameters

Group Id: com.prajjwalqa.java
Artifact Id: MyFirstMavenJavaProject
Version: 0.0.1-SNAPSHOT
Package: com.prajjwalqa.java.MyFirstMavenJavaProject

☒ run archetype generation interactively

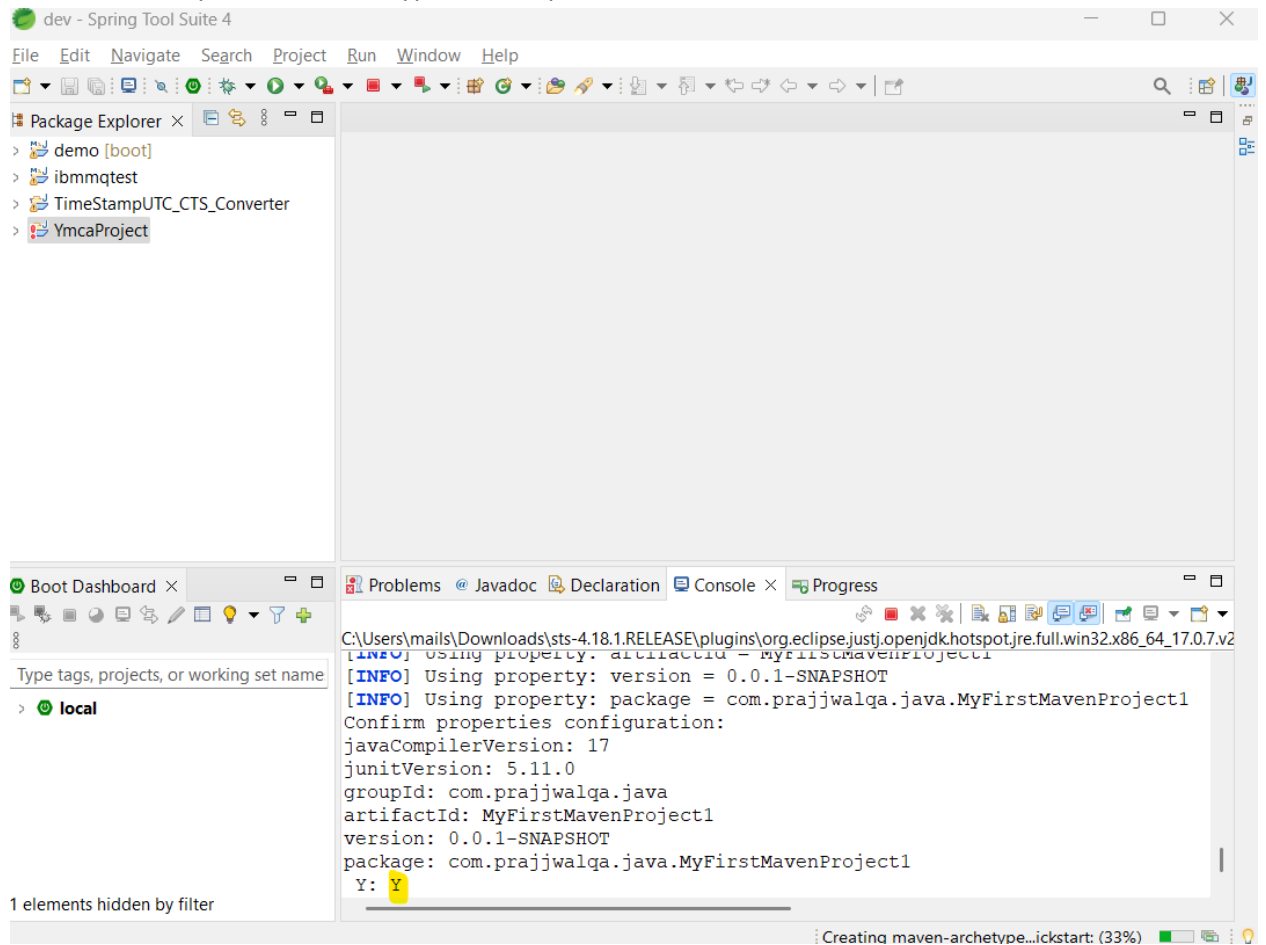

Properties available from archetype:

Name	Value
javaCompilerVer...	17
junitVersion	5.11.0

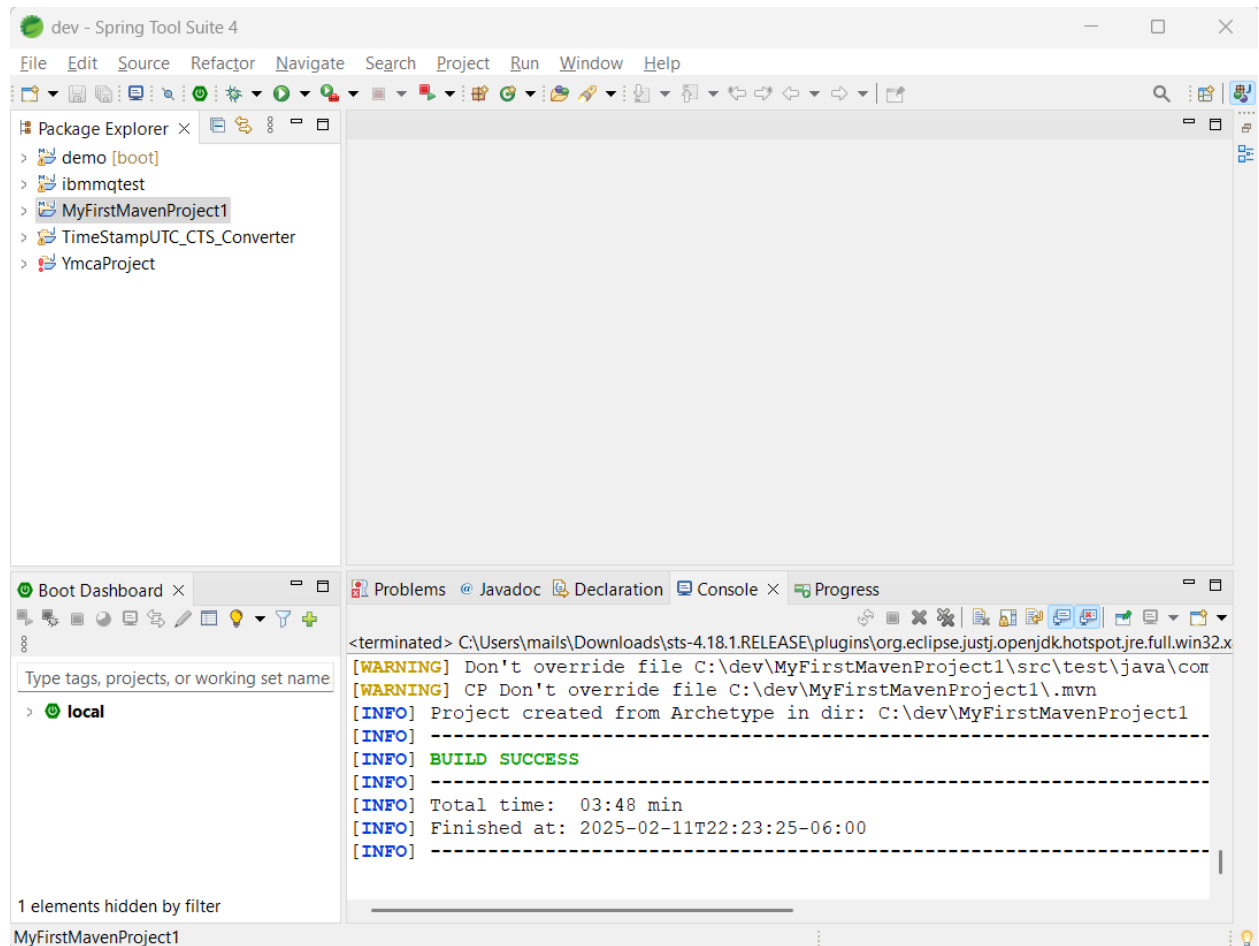

> Advanced

? < Back Next > Finish Cancel

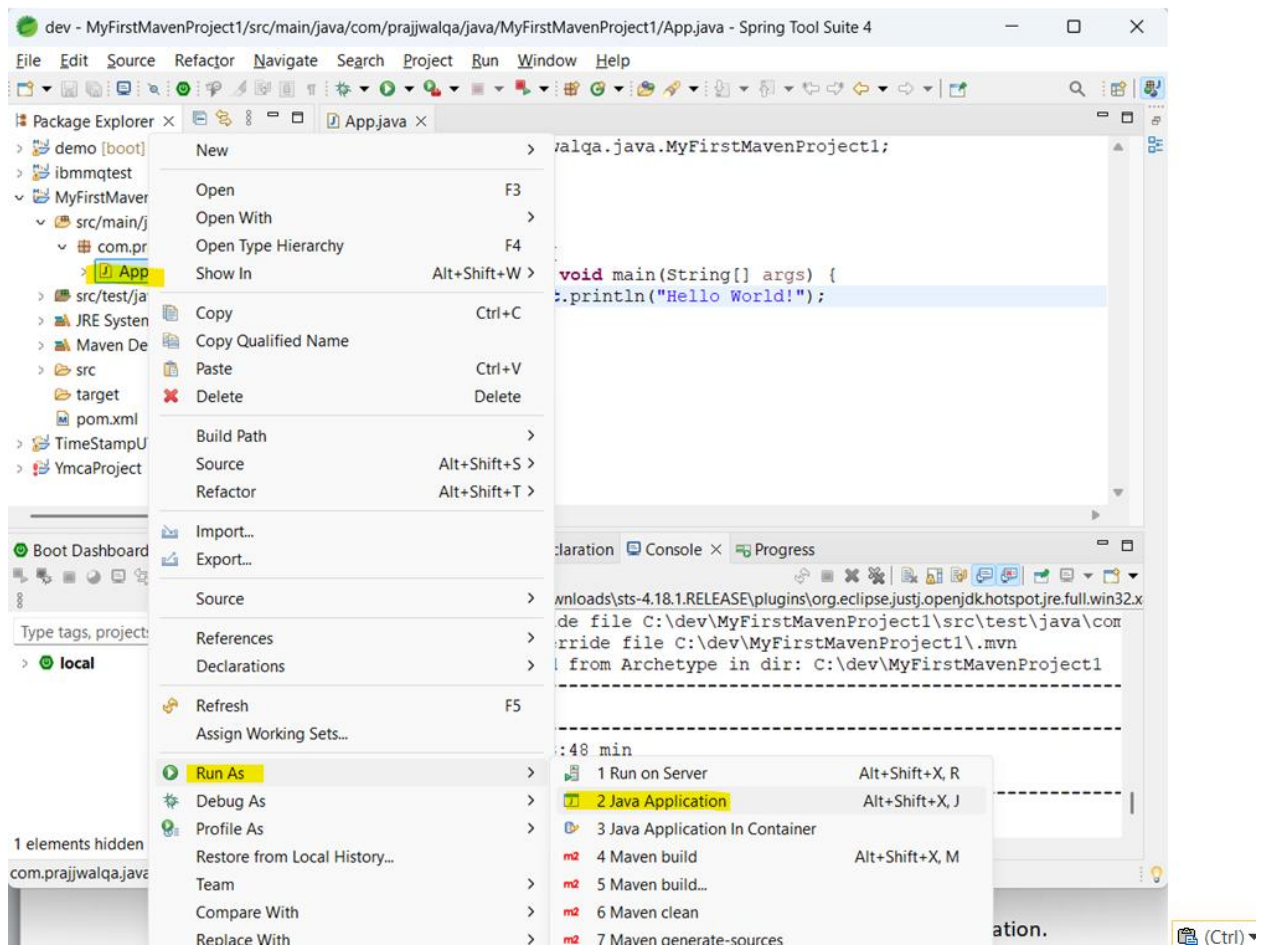

- vi. Once you click Finish button you will see blow screen with the progress.
On the console you will have to type “Y” and press Enter.

- vii. Once that done you will see your FirstMavenProject1 has been created on the STS.

- viii. The Maven project will have sample App.java for you to test and run.
- ix. You can just run the App by simply Right click on that App and Run as Java Application.

x. You can see once you run the output is shown in console.
